The withdrawal created by PLO No. 7873 expires on August 22, 2022. The petition/application also includes the proposed withdrawal extension of 68,809.44 acres of Federal land in the Dixie Valley Training Area from the mineral leasing laws (not currently withdrawn from these laws under Section 3016 of the National Defense Authorization Act (NDAA) for Fiscal Year 2000, to maintain the current environmental baseline, relative to mineral exploration and development for land management evaluation purposes, subject to valid existing rights. SUPPLEMENTARY INFORMATION: PLO No. 7873 withdrew approximately 694,838.84 acres of Federal land in Churchill, Lyon, Mineral, Nye, and Pershing Counties, Nevada, for up to four years from all forms of appropriation under the public land laws, including location and entry under the United States mining laws, and leasing under the mineral and geothermal leasing laws, subject to valid existing rights. The purpose of the proposed withdrawal extension is to maintain the current environmental baseline, relative to mining, mineral exploration and development, and geothermal energy development for land management evaluation purposes. The petition/application also includes the proposed withdrawal extension of 68,809.44 acres of Federal land in the Dixie Valley Training Area from the mineral leasing laws (not currently withdrawn from these laws under Section 3016 of the NDAA for Fiscal Year 2000, Pub. L. 106–65), to maintain the current environmental baseline, relative to mineral exploration and development for land management evaluation purposes, subject to valid existing rights.

Including the 8,722.47 acres of Department of the Navy (DON) lands, the total Federal land included in the withdrawal extension is 772,370.75 acres. Non-Federal lands totaling 66,160.53 acres are described within the withdrawal area. Any current or future Federal estate interest in these non-Federal lands is subject to this withdrawal.

The BLM and the DON are engaged in the evaluation of issues relating to possible future legislative transfer of the subject land to the jurisdiction of the DON in connection with the DON's modernization of Naval Air Station Fallon, Fallon Range Training Complex, Nevada (FRTC). While the DON requested legislative expansion of its existing withdrawal at FRTC, the NDAA for FY2021 extended the existing FRTC withdrawal for an additional 25 years but did not include the additional public lands requested for the FRTC Modernization. The DON anticipates again asking for a legislative withdrawal of these additional lands and requested that the BLM file a petition/application for extension of the existing four-year withdrawal. PLO No. 7873 is included by reference (83 FR 44654). In compliance with the National Environmental Policy Act of 1969, as amended (NEPA), the BLM Carson City District Office, Carson City, Nevada, anticipates completion of Categorical Exclusion documentation for the proposed withdrawal extension. A complete description, along with all other records pertaining to the extension, can be examined in the BLM Carson City District Office at the address shown above. Comments on the proposed 4-year withdrawal should be received on or before January 10, 2022.
